Restaurant and kitchen linen

We are pleased to offer you our extensive selection of linens which we manufacture and distribute exclusively for the hospitality industry. Our hospitality products are offered in a variety of styles and finishes.

Our exceptionally soft and lint-free linens mean crockery can be dried without smears or the depositing of unwanted fluff. The hollow fibres of linen make it more absorbent and naturally stronger than cotton, so the more these towels are used, washed and touched, the softer they become.

Only the finest materials are used in the construction of our case goods and our dedication to quality will guarantee you are purchasing the most durable contract furnishings available.
